

Catapult

Team Building Catapult Challenge

This fast-paced construction team building activity starts with a fun accuracy icebreaker involving piece-together, mini catapults that we provide.

After forming teams, your group will reach a new high with **Catapult**, a highly competitive team building catapult challenge in which teams use their creative brainpower and problem-solving skills to construct a working catapult which, when completed, will launch objects for distance and accuracy.

Each team first completes a 10-minute, hands-off inspection of their materials, taking inventory and sketching an initial catapult design. At the word "GO," teams will access their materials and start building.

With only 30 minutes in this initial phase to build and test the launcher, there is no time to waste. Completed catapults are put to the test during two separate launch phases, which truly add to the challenge of this fun catapult team building activity.

Phase 1 is the "launch-for-distance" competition utilizing a grid where measurements are marked in 5-foot increments. To share the fun and ensure full participation, we rotate team members through the various roles required to compete. At the end of the first round, points are tallied and the scores displayed.

Phase 2 tests the "distance-and-accuracy" of the launcher with team members catching objects in various-sized containers and at different distances. During this hilarious phase of the **Catapult** competition, the pressure to perform is high as each team attempts to maximize its points.

When the competition ends, the final scores will be tallied and the winning teams announced. This is a fun and creative high-energy event that will leave your group exhilarated, as the winning teams take the stage to receive their medals.

To ensure a great experience, aspects of this program may be modified for your group size, group makeup, time available, and other variables.

Clients Talk About this Program

Your Catapult team building program was innovative, creative and a fun competition. Who would have thought we could build a catapult that flings things so far. What else could we ask for? It was just like Junkyard Wars on TV. Our group had a great time!

Program Details

Group Size:

30 to 1,000+

Team Size:

6 to 8

Program Length:

1.5 to 2 hours

Space Requirement

30 sq. ft. per person is recommended. Large outdoor space or very large indoor space with high ceilings.

Setting:

Indoor / Outdoor

Physicality:

Medium

What's Included?

Pricing varies depending upon the number of participants (minimum of 30) and includes the team building program, prep, production coordination and all materials, program design, a professional lead facilitator and staffing.
