

Presentation Skills Training

Our Presentation Skills training workshop will instill confidence in even the timidest of presenters while honing the techniques of the most experienced.

Cultivate effective communication, which inspires others to action! It's no secret that the ability to speak effectively is an asset in any work or public setting.

Research shows that this one skill can be the difference-maker to crisp and clear communication while impacting leadership enhancement and upward mobility.

A successful presenter opens doors to countless opportunities. Anyone who is required to share critical business information, compel others to action, or enhance persuasiveness will benefit infinitely from this workshop.

THE WORKSHOP WILL:

- Cover specific skills vital to powerful and compelling presentations
- Explain the difference between "sharing" information and "presenting" it
- Deliver an action-provoking presentation on even the toughest of topics
- Use video as a tool for understanding how your audience perceives you
- Include tips for maintaining composure when the unexpected occurs
- Identify and define the keys to keeping your audience involved

To ensure a great experience, aspects of this workshop may be modified to benefit your group size, group makeup, and time available.

Clients Talk About this Program

Your Presentation Skills program was a wonderful addition to this year's retreat. The facilitator did a fantastic job engaging the team, and wrapping up everything they learned into coherent and useful follow up tips and check lists. Many of our people continue to draw from your lessons, which shows just how effective they are. We were glad to have you participate in our retreat, and look forward to working with you again!
