

Build-a-Guitar®

Playing music can have a very positive effect on young people. High-quality instruments are needed by students in schools and by local organizations. **Build-a-Guitar®** was created and trademarked to serve this need. These guitar kits were specifically designed to provide a unique and exciting company event.

This worthwhile program incorporates engaging audio/video clues as well as fun challenges and activities. Groups use our new *Brainstorm* game and/or *Minute 2 Win it* activities to earn the parts necessary to assemble the guitars. Our new, browser-based activity, *Brainstorm*, incorporates fun photo and video challenges, trivia, and puzzles, providing full-group engagement by having all participants play on their personal devices with no download needed. Throughout the program, participants will be capturing photos and videos of each other in action.

After a fun icebreaker to get everyone “in gear”, your teams will receive their game instructions. As teams continually gain points, they will be rewarded with trips to our music store to obtain the parts needed. During assembly, periodic inspections will ensure the guitars are built to precise specifications.

In addition, teams will design and decorate a poster to reflect the unique personality of their “band”. Our Build-a-Guitar® kits also include a tuner, carrying case, audio cable, guitar strap, picks, and even a personal amplifier!

Once all guitars are built, don’t be surprised if a spontaneous jam session and photo op break out. So, let’s get rolling and build some guitars for future musicians of America, who will never forget your wonderful gift to their school or organization. At the conclusion of the program, a local charity or school representative may address your group and thank you for your donation.

To ensure the success of the experience, aspects of this event may be modified for your group size, group makeup, time available, and other variables.

Our historically popular iPad activities are still available upon request.”

Clients Talk About this Program

Our group of 650 TruGreen employees had an amazing time at their event. The best team building aspect of the Build-a-Guitar program was seeing the teams work together. The most fun was seeing the end results of our attendee’s efforts and the kids playing the guitars.
