

Race Car Rally

READY, SET, GO!

Race Car Rally is an exciting program of fun, race-related activities that enables teams to assemble race-worthy cars—built for speed—on special Lego car platforms! Pricing starts for groups of 30, but we have delivered this program for groups with as many as 1,500 participants.

Teams compete for points using our new browser-based activity, Brainstorm and/or Minute 2 Win it Activities, to earn points that earn them the parts necessary for their build. Brainstorm incorporates fun photo and video challenges, trivia, and puzzles, providing full-group engagement by having all participants play on their personal devices with no download needed and the ability to capture and save all your memories of this truly heartwarming event with photos and video of your teams in action.

Each team will use Metal Lego® car platforms, wheels, windshields, drivers, and more to build its fastest car. During vehicle construction, other team members will be decorating their driver's jumpsuits so they really look the part for the race and create a flag with the colors of their car.

Crew members will create and perform their own "Champions 'Chant'" to fire up team spirit and prepare their driver for competition. Throughout the program, points are gained for originality, design, creativity, and functionality.

Once the cars are built, teams will have access to our racetracks for valuable, timed practice runs. This will allow them to tweak their cars for additional speed before it's their turn to compete in the races.

Teams will then be assigned to a track, where they race their car against other teams' cars in their "division" to win a spot in the final race of the day.

The top winners from each division will face off in the final heats, vying for the coveted gold medals and the esteemed title of "Race Car Rally Champions!"

Lego® is a registered trademark of The Lego Group.

Our historically popular iPad activities are still available upon request.

Clients Talk About this Program

Our group loved Race Car Rally! Everyone enjoyed the entire program, which was extremely organized. The best part was the competitiveness of the race. The different team-building activities they have to complete to get points are a great way to get everyone interacting. We look forward to doing another team building program soon!
