Virtual Speed Networking

Virtual Speed Networking is the perfect virtual networking event to promote camaraderie and enhance relationships through a fun series of game-type challenges mixed with meaningful discussions. This program has two great design options. The first one is the perfect break from traditional virtual meetings for participants who already know each other, as a fun way to enjoy each other's company, enhance camaraderie, and strengthen bonds. The second option is for newly formed teams or project groups – such as orientation, interns, or onboarding – to get to know each other better through engaging conversations and fun team activities.

Program Agenda

The experience begins with a fun icebreaker, such as Categories or Signature Hunt, to energize the group. Participants are then assigned to small breakout rooms where they engage in quick discussions or light challenges. Afterward, everyone returns to the main room for a full-group interactive game, before being reshuffled into new breakout groups. This fast-paced sequence continues through four to six unique rounds, each with fresh prompts or activities. The session ends with a group reflection and shoutouts, leaving everyone energized and more connected.

Program Outcomes & Takeaways

- · Strengthened relationships across distributed teams
- · Increased comfort and fluency in virtual communication
- · Positive team energy and lasting shared memories
- · Great for onboarding, internal mixers, or post-project cooldowns

Program Customization

Consider offering flexible customization, such as:

- · Client-selected topics for breakout sessions
- · Mix of fun and strategic challenge types
- · Add-on options for awards or swag delivery
- Scalable designs for intern programs or all-hands meetings

This engaging session will have participants smiling and creating fond memories of fun interaction while connecting/reconnecting in a positive and meaningful way. Get your team connecting today!
