

Virtual Name That Tune!

A High-Energy Music Team Building Game

Whether your team loves the '70s, '90s, or today's top hits, Virtual Name That Tune is a fast-paced, fully interactive game show designed to bring out everyone's competitive and musical spirit. Hosted live by an engaging professional emcee, this high-energy program gets participants tapping into their music knowledge—and their reflexes—as they race to identify songs, artists, lyrics, and more.

Participants join using their Apple or Android devices and respond to a variety of timed trivia formats, including multiple choice, true/false, and fill-in-the-blank. The quicker the response, the higher the score. A live host kicks things off, introduces the categories and scoring, and guides the group through the experience. Each player chooses a name to appear on the scoreboard—and as the game begins, the competition heats up!

Program Agenda

Our interactive host will welcome the group, and introduce the game, categories, and scoring. Players will choose a name that will appear on the scoreboard and the main screen when they are the fastest to answer. Then the group competes in rounds of music-related categories to earn as many points as possible.

Designed around the classic "Name that Tune", participants will watch video clips and be asked to identify the song, the band, or artist, or perhaps to answer a trivia question or two based on the lyrics, the band, or the video itself. Clips ranging from ten to thirty seconds will give participants enough time to sing along to new tracks as well as old favorites.
