

Virtual Treasure Hunt Trilogy: The Cave

In this first virtual episode called **The Cave**, teams will be confronted with the initial challenges in the Treasure Hunt Trilogy scenario. Our Escape Rooms are secure, no-install, virtual events that work on all screen-share platforms. With an immersive storyline, clues of varying difficulty, detailed graphics, and an advanced escape room platform, this program will energize and bond your team.

Teams are put into the shoes of an agent of the Artifacts Bureau, dedicated to finding lost historical artifacts and turning them over to the National Museum. As they progress, your team (as the agent) combines their observations and newly revealed Bureau information to discover an urgent mission unfolding.

Participants will need to use the information concealed in their virtual surroundings by carefully inspecting the objects they find, interacting with them, finding clues, solving puzzles, and deciphering codes to ultimately find the 4 DIGIT ESCAPE CODE to solve the mystery.

Your group will play in teams of 4 to 6 players, with a captain to lead each team. Each team will choose a time convenient for them to virtually gather to complete the episode. At the end of the play period selected by your organizer, all the scores will be compiled, and a final scoreboard will be sent to all participants showing where their team placed and announcing the winning team.

This delivery method allows you the flexibility to provide an activity for small to very large groups in multiple locations across the country or even across the world, without the headache of coordinating schedules and timezones.

Put on your game face and your detective hat, and be the first to solve the mystery! Remember, this is a team challenge – the fastest and most collaborative team will win. Good Luck!
