Virtual Escape Room: New Year's Eve Adventure

Virtual New Year's Eve Adventure is an immersive virtual escape room game that features a mysterious dilemma that teams must tackle together. Our Escape Rooms are secure, no-install, virtual events that work on all screen-share platforms. With an immersive storyline, clues of varying difficulty, detailed graphics, and an advanced escape room platform, this program will energize and bond your team.

Teams learn that a nefarious figure known as Mr. Joy Killer has plotted to jeopardize and ultimately destroy New Year's Eve celebrations in several cities. Each team must travel to the targeted cities to find and signal jamming devices planted by Mr. Joy Killler to bring celebrations down before the clock strikes midnight. Participants must use their observations and problem-solving skills to discover the clues they need to find each jammer and disable it.

Participants will need to use the information concealed in their virtual surroundings by carefully inspecting the objects they find, interacting with them, finding clues, solving puzzles, and deciphering codes to ultimately find the 4 DIGIT ESCAPE CODE to solve the mystery.

Your group will play in teams of 4 to 6 players, with a captain to lead each team. Each team will choose a time convenient for them to virtually gather to complete the episode. At the end of the play period selected by your organizer, all the scores will be compiled, and a final scoreboard will be sent to all participants showing where their team placed and announcing the winning team.

This delivery method allows you the flexibility to provide an activity for small to very large groups in multiple locations across the country or even across the world, without the headache of coordinating schedules and timezones.

Put on your game face and your detective hat, and be the first to solve the mystery! Remember, this is a team challenge – the fastest and most collaborative team will win. Good Luck!
