Mavericks Murder Mystery

Immersive VR Mystery Team Building Game

Mavericks Murder Mystery is a groundbreaking immersive team building game that combines virtual and augmented reality with classic detective-style gameplay. In this innovative format, teams of amateur sleuths must collaborate to unravel a complex murder case using high-tech VR crime scene exploration and AR evidence to crack the case before time runs out.

Program Agenda

This one-of-a-kind murder mystery team building activity blends immersive technology with problem-solving, observation, and collaboration. Participants are grouped into teams of 5–6 and assigned unique detective roles as they investigate the crime.

Each player receives a character profile and a virtual room to examine. Wearing VR headsets, players explore their assigned crime scene, interact with objects, and collect evidence using augmented reality. Evidence is captured via photo and displayed on the team dashboard for analysis.

Some participants take on forensic roles, analyzing the digital evidence, while others play the role of field investigators. At key intervals, teams regroup to share clues, discuss theories, and collaborate in solving the mystery.

The storyline, suspect list, and evidence trail are all fully integrated into the experience, ensuring that every team member is actively involved. As the clock winds down, each team submits its conclusions. Accuracy and speed both count in determining the winning detective team.

Program Outcomes & Takeaways

- Enhances collaboration and strategic thinking
- Boosts problem-solving and observation skills
- Encourages continuous communication under time pressure
- Provides an unforgettable shared experience with cutting-edge tech
- Appeals to both analytical and creative thinkers

Program Customization

Note for BEST: Please describe options for personalizing this program. Suggested ideas include:

- Custom storylines (e.g., set in your industry or themed to a company event)
- Branding options for the digital dashboard or suspect profiles
- Gamification elements or awards tailored to corporate goals

Think your team has what it takes to solve the case? Book your Mavericks Murder Mystery
