

Build-a-Band™

Playing music can have a very positive effect on young people. High-quality instruments are needed by teens in youth organizations and by schools with underfunded music programs. **Build-a-Band™** was created to serve this need. These instrument kits were custom-designed for BEST – complete with instruction manuals – to provide a unique and exciting company event.

This CSR event starts by forming your group into teams (Bands) who pick a team leader (Lead Singer) and engage in our fun, fast-paced, team competition called BrainStorm.

BrainStorm features team questions, photo activities, and timed video challenges that enable teams to earn the parts necessary to assemble the guitars, bass guitars, and drum sets. Throughout the Brainstorm program, participants will be capturing photos and videos of each other in action.

As teams gain points through BrainStorm challenges, they will be rewarded with trips to our music store to obtain the parts needed for the assembly. Our expert facilitators (Roadies) will do periodic inspections will ensure the guitars, bass guitars, and drum sets are built to precise specifications.

Our guitar kits also include a carrying case, tuner, audio cable, guitar strap, picks, and even a personal amplifier! Depending upon the allotted time, each team can create a band name, design a drum head with a band logo, and create a concert poster to reflect the unique personality of their band.

Once all the instruments are built, don't be surprised if a spontaneous jam session and photo opportunity break out. So, let's get rolling and build some band instruments for future musicians of America, who will never forget your wonderful gift to their school or organization. At the conclusion of the program, a local charity or school representative may address your group and thank you for your donation.

To ensure the success of the experience, aspects of this event may be modified for your group size, group makeup, time available, and other variables.

Clients Talk About this Program

Best Corporate Events has done it again! This time, providing a hugely successful Build a Band Challenge, which took place in our host city of Nashville! Our attendees took part in trivia challenges and were able to build their own band of teammates producing some very creative guitar cases along with working guitars and a drum set! Not to be forgotten was their talent while forming their very own bands with unique names and a few out-of-the-box iPad performances! All was accomplished with the help of a great BEST staff led by Indy Tapar, who was a true professional and a joy to work with. The experience was first rate and capping it off by actually donating the instruments to children took the entire event to a grander level. A truly enjoyable and worthwhile event!
