

Pediatric Care Donation

Pediatric Care Donation is a meaningful charitable program that will have your group navigate a series of engaging activities leading up to the assembly of bins full of donation items for children who could really use a smile during a difficult time.

We developed this program in close partnership with [St. Jude Children's Research Hospital](#), however our clients are welcome to select a different children's hospital or organization if desired. Items for the care packages will be chosen based on the specific needs of pediatric patients at the selected organization to ensure the donation meets the needs of pediatric patients in their care undergoing treatment for cancer and other life-threatening illnesses.

This program features our fun & interactive **Brainstorm** app, delivering text, audio, and video clues, exciting gaming challenges, and the ability to capture and save all your memories of this heartwarming event with photos & videos of your teams in action.

The process of building care packages will start with the formation of sub-teams who participate in a series of fun and challenging icebreakers and team-building activities. Through these challenges, teams earn points, which enable them to acquire the contents of the care bins.

Whenever possible, a representative from the receiving charity may surprise your group at the end of your program, speaking passionately about the impact your donation will have on the young people facing this difficult and trying time in their lives. This inspiring, morale-boosting event will bring your team together through shared goals, a sense of purpose, and the goodwill of knowing that they have done something impactful for those less fortunate.

To ensure a great experience, aspects of this event may be modified for your group size, group makeup, time available, and other variables.
