

Build-a-Green Machine!

Unlike our Bike Build Donation that provides bikes to directly to kids, our Build-a-Green Machine program donates these beautiful three-wheelers directly to the facilities of organizations that serve children in the local community.

Your Green Machine donation will give children, ages eight and older, another fun way to stay active.

Your program kicks off with a fun icebreaker, utilizing our Apple iPads and proprietary apps to engage teams in trivia, fun challenges, and audio/video missions.

As teams gain points through the iPad challenges, they will be rewarded with trips to our green machine store to obtain the parts they need to assemble these beautiful new Huffy Green Machines. Your teams' Organization, delegation, communication, and some mechanical skills will be tested to complete this fun and engaging activity.

After the Green Machines have been built, they are inspected before being displayed with all the participants for a group photo.

Based on allotted time and available space, this program may also include writing personal notes of encouragement, staging a Green Machine parade or even competing a Green Machine obstacle course or race!

At the conclusion of the event, whenever possible, your group will present these beautiful, finished machines to a local charity representative who will address your group and thank you for your donation.

Build-a-Green Machine Build is another one of our popular corporate giveback programs, and every Green Machine your group builds comes with a cool helmet for safety.

To ensure a great experience, aspects of this event may be modified for your group size, group makeup, time available, and other variables.

Since you like this program, you may also consider [Virtual Price it Right](#) as a remote option!

Clients Talk About this Program

"In response to requests from our network of Boys and Girls Clubs, we designed this fun, charitable team building program, geared towards older children. Unlike the bikes donated to deserving children in the community through our Bike Build Donation, these beautiful Green Machines will be donated directly to the facilities of organizations who serve children in the local community. This way all the children attending have a chance to ride an exciting Green Machine! "
