

Build-a-Wheelchair®

Build-a-Wheelchair® is a corporate social responsibility program born out of a desire to help American veterans and others with various mobility challenges. In this fun and worthwhile program, groups use teamwork skills and iPads® activities to earn the materials necessary to assemble, test and decorate these new wheelchairs for donation.

A fun and engaging energizer, followed by a thorough program walkthrough by the lead facilitator, will kick off this impactful event. After your teams have built their wheelchairs, they will proceed to the safety station for a mechanical inspection. Once completed, artistic notes of encouragement are designed and attached. If space allows teams will then engage in an obstacle course maneuverability challenge against other teams.

The wheelchairs will then be staged with your teams for a memorable photo shoot. When possible, a representative from the chosen charity will now make a surprise appearance, sharing information about their organization and the impact your donation will have on the recipients.

The focal point of this CSR event is to benefit the countless people who, with your generous donation, will be gifted with these beautiful, brand new wheelchairs.

To ensure a great experience, aspects of this program may be modified for your group size, group makeup, time available, and other variables.

Clients Talk About this Program

"It has been quite a while since I first contacted your sales department to ask about what we might work on together... phew! We've covered a lot of ground in the meantime with four big programs in three countries building a total of over 800 wheelchairs. A BIG thank you for everything that we managed to achieve. The wheelchair builds were a HUGE hit for us all. "

Matt - Dell Global Communications

Program Details

Group Size:

30 to 1,000+

Team Size:

10

Program Length:

2 to 2.5 hours

Space Requirement

25 sq. ft. per person

Setting:

Indoor / Outdoor
