

## Escape SmartHunt®

We took the escape room concept and made it high-tech and portable!

By adding iPads loaded with the SmartHunts app, teams are presented with a unique and enhanced challenge different than any other escape experience.

In addition, you no longer have to transfer your group to a traditional escape venue and worry about large groups not being accommodated. Now, you can have an escape event delivered for any size group at any meeting venue, including hotel ballrooms, meeting spaces at a resort, or even as a tour around a city!

Teams begin their adventure by solving brainteasers to break into a locked container that holds a SmartHunt iPad and all other supplies needed to succeed. Once each team unlocks their container to access their iPad, they are free to begin the remaining challenges.

At your venue, teams can be tasked with various break-out locations, which can be decorated and themed. Teams move from location to location and complete a series of escape-themed activity challenges in an effort to earn a key to escape. Examples of challenges include clues, puzzles, hidden items, a drone obstacle course, laser mazes and Nurf® targets, all leading to discovering the secret code which provides the key to the lockbox and their escape.

Teams scan QR codes using their iPads to earn points for completing each activity. When all activities are completed, they receive a secret code needed to redeem their key they need to escape!

Can your team complete all the challenges, follow the clues, and find all the stations needed to escape? There is only one way to find out.

Reach out anytime to learn more about the various ways we can customize this experience for your group and location!

## Clients Talk About this Program

"I was blown away by the level of thought put into our team-building event by the colleagues at Best Corporate Events. From the backpacks to the app on the iPad, everything was super user-friendly and at the pace of our colleagues. What really stuck with me was our instructor; he was enthusiastic, engaging and most importantly had a high level of care. We had a colleague fall ill after the event and she had to leave early, this colleague was apart of the winning team and really gave it her all. Our lead instructor contacted me the next day to ensure this colleague was ok and on the mend. This will be a company I stick with for team outings and recommend to friends. I cannot say enough. You can't pay for that kind of service. "
