

Locate and Donate SmartHunt®

Locate and Donate SmartHunt® is one of our exhilarating programs where teams navigate through a customized route to complete text, photo, and video challenges on their iPads to earn points. Unbeknownst to the participants, a charitable mission is hidden in the fun and excitement of the event.

We begin with an engaging Program Launch activity that results in the formation of teams. The first step includes analyzing the informational clues while attempting to develop the best possible strategy to move your team efficiently through the course in the time allotted.

SmartHunts® are high-tech scavenger hunts run on Apple® iPads® that utilize text messaging, audio, video, FaceTime®, social media, QR Codes, and GPS with built-in Mapping. Along the route, your teams will have to find our challenge station where they'll receive a surprise package if they can successfully complete their challenge.

To the surprise of the participants, previously collected packages are opened at the ending location to reveal puzzle pieces. When assembled, the pieces form a large bank check donation to an organization of your choice in any amount you desire.

Our Facilitator app also creates a slideshow of your hunt during the event, so when your group returns to the ending location, the best photos and video clips shot are already up on the big screen!

Two weeks after the event, we will send you a link to a web page that contains all the photos and videos shot by your group. The page also includes an edited video of your program and all the scoring, photos, and video from each one of your teams. Now, that's smart!

To ensure a great experience, aspects of this program may be modified to benefit your group size, group makeup, and time available.

Clients Talk About this Program

"Our 1,450-person Located and Donate SmartHunt was very organized. The best team building aspect was the technology and the response time for each team's submission. The most fun was networking with team members. Our entire group enjoyed their SmartHunt very much. It really ran smoothly and was a great event! "
