

Virtual Jeopardy!

What do you get when you combine state of the art technology, graphics, and sound effects presented to your group by our fun and engaging event facilitators? You get **Virtual Jeopardy!**

Virtual Jeopardy is our take on the classic television game show. With all the traditional elements held in a virtual environment and our professional interactive host, your group will have the full game show experience. This game show is the perfect way to break up a day of lectures or kick off an orientation or event.

Our game show host is a professional facilitator who will keep the contestants engaged from the start, guiding topic selection, announcing leads, and encouraging competitive banter among the contestants.

Your group will be formed into teams who accumulate points together, but each participant will have the chance to 'buzz in' to respond using their personal apple or android device.

For the speediest contestant, correct answers will earn points for their team, and play will pass to the next person to buzz in if they answer incorrectly. Watch the energy rise as teammates cheer each other on to answer correctly. Just make sure they say their answer in the form of a question – because after all, this is Virtual Jeopardy.

Our program is fully customizable, and with five categories each round, you have the chance to provide questions in your own custom categories that pertain to your company or team.
