Virtual Orientation Game Show

This is, by far, the most fun and interesting way to learn about your new job or internship position. What do you get when you combine state of the art technology, important information for interns and new hires, and an engaging and professional Game Show host? You get the Onboarding Game Show!

Played on the participants' apple or android devices, our Onboarding Game Show is a full participant, full engagement Game Show with a mix of multiple-choice, first letter, and numerical trivia questions. Your group will not only earn points for fun competition but more importantly, they will be acquiring the necessary knowledge and skills to become effective members of their professional teams.

A great addition to any onboarding program, this game show will assist in providing a positive introduction for new workers that leads to increased job satisfaction, greater commitment to the company or business, less occupational stress, better job performance, and higher retention.

Each person downloads the app for our show. Our interactive host will welcome the group, introduce the app, question types, and scoring. Each participant will choose a name that will appear on the scoreboard and ultimately on the main screen when they have the fastest correct response to a challenge. Players compete in a mix of trivia rounds which will include important company facts, history of the business, onboarding information, and most popular tips for new employees.

We can also do a photo question round which will include important office locations or even company leaders. Another feature will be a Poll Question Round highlighting what new hires are experiencing during this process, and will be a unique way for players to express themselves and build camaraderie with their new colleagues and supervisors. The main goal will be instructional as well as FUN and to earn as many points as possible. The scoring increases as the rounds continue so no lead is safe.

We also offer a version of this program specifically for university and college students on our collegiate website, called Virtual Orientation Game Show. Click here for full details!

Program Details

Group Size:
Up to 100

Team Size:
N/A
