Virtual Hooray for Hollywood!

Lights! Camera! Action!

Take a virtual stroll down Hollywood Boulevard as your group demonstrates their movie knowledge with **Virtual Hooray for Hollywood!** - a star-studded trivia challenge extraordinaire.

With state of the art gaming and our engaging and interactive professional host, your group will experience a full participant, full engagement, interactive game show. All participants submit answers throughout the game on their apple or android device. With a mix of multiple-choice, true/false, and fill in the blank trivia questions, the faster participants respond correctly, the more points they earn!

Our interactive host will welcome the group, introduce the game, categories, and scoring. Players will choose a name that will appear on the scoreboard and the main screen when they are the fastest to respond. Then participants compete in rounds of trivia categories about movies, television, and the stars of the screen to earn as many points as possible.

Players will be challenged to answer trivia questions from such categories as *The Golden Age of Hollywood (TV and Movies), The Swingin' '60s, Film Noir, Must-See TV,* and more. Identifying the movie from a foreign poster, naming the movie or show by seeing a photo of the cast, or identifying the film by its Oscar-winning song are just a select few of the types of questions participants may see. All the film buffs, from the novice to the die-hard, will get their chance to shine...and maybe even earn bonus points if they arrive on the virtual red carpet dressed as their favorite movie star!

Check out our Holiday Game Shows for a fun and festive edition of this program. And ask about the glitz and glamour of our Collegiate and Golden Age of Hollywood star-studded trivia versions as well!

Short on Time? This program also comes in a 30-minute virtual version for live meeting breaks. All participants play the game on their Apple or Android device (no app to download, participants play through a website), individually or in groups sharing a device.
