

Virtual Environmental Trivia Challenge

Our **Environmental Trivia Challenge** is a fact-packed themed option of our traditional Virtual Trivia Blast program. Combining state-of-the-art gaming with our engaging professional hosts, our Environmental Challenge is both a fun and informative way for your group to discuss and learn about the many facets of the earth's ecosystems and the amazing world around us.

This inspiring virtual quiz show is packed with fascinating insights about the current state of affairs on the planet that we call home. Participants will be tested on facts relating to environmental challenges we face, as well as the efforts to lessen our impact.

This program is a full participation interactive trivia challenge in which players' apple or android device becomes their individual response system. With a mix of multiple-choice, true/false, and fill-in-the-blank trivia questions, the faster players respond correctly to questions, the more points they earn!

Along the way, polling questions and facilitated discussions about the topics covered will be included, and participants will have a chance to share some of their own life experiences around environmental issues, nature, and the optimistic outlook for the decades ahead.

This thought-provoking program is fun and engaging for players with all levels of environmental knowledge, from basic to advanced. Whether you want to drive awareness of recycling and sustainability, spark discussion on environmental advocacy and initiatives, or just have a fun earth-centered activity, our Environmental Challenge is the perfect way to enhance your virtual gathering!

Short on Time? This program also comes in a 30-minute virtual version for live meeting breaks. All participants play the game on their Apple or Android device (no app to download, participants play through a website), individually or in groups sharing a device.

Clients Talk About this Program

"Our whole group enjoyed their Virtual Environmental Trivia Challenge and your facilitator catered some of the questions for our participant locations. The entire event was fun, but I liked the PSAs the best. The team bonding came from playing the game together and the feedback I got was all positive. Your facilitator Russ was great! He was energetic, prepared, and engaging!"
