

## Virtual Are You Smarter Than a 6th Grader?

You might think you're smarter than a 5th grader, but are you smarter than a 6th grader?

You learned a lot in your early years of school, from geography to history, to math, science, and English. But, how much of your elementary school education have you retained as an adult? Well, now you can find out! Test your knowledge and memory with our virtual game show - **Are You Smarter Than a 6th Grader?**

Based on the popular TV game show, this challenge will pit your wits against the curriculum students follow at the 6th-grade level. You might be surprised to discover much you still remember... and how much you don't!

Don't feel bad if 6th-grade math is no longer your forte - even the most studious of adults will get questions wrong in this game!

This program is an interactive challenge in which players' apple or android device becomes their individual response system. With a mix of multiple-choice, true/false, and fill-in-the-blank trivia questions, the faster players respond correctly to questions, the more points they earn!

So, are you really smarter than a 6th grader? Put your memory to the test to find out! No matter the score, you and your team will have a fun time striving to recall information stored deep in your brain with this exciting virtual game show!

*Short on Time? This program also comes in a 30-minute virtual version for live meeting breaks. All participants play the game on their Apple or Android device (no app to download, participants play through a website), individually or in groups sharing a device.*

### Clients Talk About this Program

"Our group had a lot of fun with our **Virtual Are You Smarter than a 6th Grader** program! The group loved the range of questions. We liked that there were some questions outside of a typical academic curriculum. We had the most fun reminiscing about middle school with our host Russ, who is always so fun to work with! We laughed and sang songs (prompted by certain questions) that reminded us of our middle school years."

Lorrie - [Community College of Baltimore County](#)
