

Virtual Office Party

Our **Virtual Office Party** is the perfect way to bring a remote group together for a fun and engaging team experience. Ideal for bringing some structure to leisure and socialization time, this activity is played on a secure, no-install, browser-based game platform while teams communicate on a video call platform of their choice throughout the game.

The group will play through a series of simple and fun interactive mini-games presented in various media formats including image and audio files, providing an opportunity for every player to showcase their unique knowledge and skills. Players must use their observations, existing knowledge, group problem-solving skills, and communication to succeed with each challenge or mini-game. Ultimately, teams will be scored on their accurate completion of each game level within the allotted time.

Your group will play in teams of 6 to 8 players, with each participant viewing the game platform in synchrony with their teammates. A Game Master will be on hand to facilitate the experience and provide clues if needed. As certain team members shine through each challenge, their colleagues will have the chance to vote them the representative of the company in different categories - the traveler, the foodie, the sports enthusiast, and so on.

At the conclusion of the program, the scoreboard will be revealed showing where each team placed and announcing the winning team. This fun concluding ceremony will also serve as an Oscars-style award show where the top-voted players of each characteristic category are announced and celebrated.

This program is a great way to spend time with colleagues in a fun and recreational setting that will enhance your team cohesion while allowing employees to get to know each other better and learn about their colleagues' strengths - both in and out of the workplace!
